

This half term we will be exploring winter.

Please choose at least 3 of the activities to complete during the half term. Your child can present their work however they would like to. They could use the computer, take a photograph, record a video or they could draw and label a picture etc. It's up to them—with a little guidance from you! Please upload to Seesaw once completed for us to see and celebrate their work.

Homework can be uploaded at any time up until Friday 17th February.

Can you test 3 different materials, or methods, to see which melts an ice cube the quickest. Did you guess right?

Can you go on a winter shape hunt? You could take pictures of all the shapes that you find.

Reception Homework Spring Term 1

Can you create a winter story using small world characters and materials from around your home? Think about the beginning, middle and end.

Practice zipping up your coat, or fastening buttons on items of clothing independently.

Can you learn the 'Snowflake song' using Makaton? Here is a helpful link:
<https://www.youtube.com/watch?v=bqUuAAD6qZU>

Can you make a natural ice catcher? What patterns can you create?
